

BOARD OF CERTIFICATION
LIST OF TRAINING CENTRES

Are indicated, hereafter the contact information of the training centres known by the CFPC Board. They train people for the cathodic protection certification for levels 1S, 1 and 2 for the application sectors "Land" (buried structures) and "Seawater" (submerged structures).

This list is provided for information purposes only, the CEFRACOR-CFPC declines to be responsible for the non-approved centres.

Inquiries about training sessions have to be done directly to the Training Centres.

The centres were approved according to the procedure BC/PR/18000 " Training centres - Rules and approval ".

Category A: The training offered by the Centre dissociates the part concerning the Common base part from the part concerning the specific Sector. The trainees have the possibility to register either to the whole test or to one or the other offered parts. The cost of each service is according to the trainee 's needs.

Category B: The training offered by the Centre does not dissociate the Common base part of the sectoral part. The trainees do not have the possibility to register to one or the other parts.
